JUAREZ A MONTE CARLO.

Dan A. Stuart is expected in El Paso next week. It is generally known that Mr. Stuart is working to secure a conc seion from the Mexican gov-rament for sports in Justez, says the El Paso Times. If Mr. Stuart succeeds. and it is most likely that he will, sport and it is most likely that he will, sporting headquarters in the United States will be transferred from New York to El Paso. The concession will call for horse racing pugiti-tic assaults, and gaming of all kinds. The fact that New York, the empire state of the United States, has passed a law permitting boxing contests, wil' no doubt influence the Mexican government to look with kindness on Mr. Stnart's

"The people of E! Paso," said Mr. Stuart to a Times reporter recently, "have no ide what it will mean for El Paso to transform Juarez into a Monte Carlo. The money for \$300,000 worth of buildings and race tracks has already been suscribed, and if I am successful in my negotiations, double that amount of money will be spent in El Paso by our company during the next six months. We are going to have this Monte Carlo s mewhere in the United States, and I prefer this point because El Paso has railroads reaching out in every diretion, and in the course of time they could be induced to help El Paso in order to holp them
